

SEXUAL ASSAULT IS ANY SEXUAL CONTACT OR BEHAVIOR WITHOUT AFFIRMATIVE CONSENT

CONSENT MUST BE...

Consent is active, communicated, informed and specific. Silence is not consent; "yes" means "yes."

Consent cannot be given when someone is intoxicated, asleep, or unconscious.

Consent is never given under pressure, through force or coercion. It is enthusiastic and mutual.

Consent must be granted every time for every act, and anyone can change their mind at any time.
